Onyinyechi Anita Ikea

Senior Sales Financial Analyst / Retention Manager · Lagos, Nigeria

ikea.onyinyechi@gmail.com · linkedin.com/in/ikeaonyinyechi · github.com/Kennystfyn · Portfolio: kennystfyn.github.io · +234 703 109 8767

Professional Summary

Senior sales financial analyst and retention manager with experience across finance, technology and service sectors. I turn operational data into clear insight using Excel, SQL and Power BI, and I document requirements, user stories and processes in Jira and Confluence. Since 2020 I have built and managed a large client portfolio in forex brokerage, onboarding 2,000+ new accounts. I bring that client-facing background to cross-functional collaboration, Agile delivery and process improvement.

Core Skills

- **Business analysis & documentation:** BRD, PRD, functional requirements, user stories, acceptance criteria, UAT, RACI matrix, gap analysis, requirements gathering
- **Process analysis:** business process mapping, workflow modelling, customer journey mapping (Visio, Lucidchart, draw.io)
- **Data analysis & visualisation:** Excel, SQL, Power BI (DAX, dashboards)
- **Agile & collaboration:** Jira, Azure DevOps, Confluence, Scrum ceremonies, backlog grooming, stakeholder management, change management
- **Productivity tools:** Microsoft Office Suite, Google Workspace, Slack, Zoom, TeamViewer
- **Finance & client skills:** client onboarding and retention, forex and market analysis, risk management, training and presentations

Professional Experience

Business Analyst — Amdari Inc., UK · January 2026 – Present

- Defined project scope and documented requirements in BRDs and PRDs in Confluence, cutting project rework by 30%

- Analysed operational data in Excel, SQL and Power BI to support decisions for 5+ project stakeholders
- Built Power BI dashboards tracking project KPIs, sprint velocity and operational metrics, cutting reporting preparation time by 35%
- Led sprint planning, backlog management and issue tracking in Jira and Azure DevOps, improving delivery speed by 25% and team productivity by 20%
- Maintained RACI matrices across projects, reducing workflow bottlenecks by 15%
- Mapped and optimised processes in Lucidchart and Visio, improving operational workflows by 20%
- Led User Acceptance Testing, writing test cases and managing defects in Jira, reducing post-implementation issues by 40%
- Documented project updates, retrospectives and decision logs in Confluence, reducing miscommunication by 25% across 5+ teams

Senior Sales Financial Analyst / Retention Manager — FRNG Limited, Lagos, Nigeria · September 2020 – Present

- Built and managed long-term relationships with clients across diverse financial asset portfolios
- Converted leads through high-volume outbound calls to cold and warm contacts, growing active trading clients and revenue
- Developed tailored client strategies and guided trading advice to improve retention and satisfaction
- Delivered product demonstrations, presentations and training sessions, capturing $500,000 in sales opportunities
- Attracted and onboarded 2,000+ new client accounts through business development and market research

Front Desk / Customer Service Executive — FRNG Limited, Lagos, Nigeria · July 2018 – August 2020

- Resolved customer inquiries, complaints and product issues promptly, supporting client loyalty and repeat business
- Guided new clients through sign-up and onboarding, and supported call-in customers with accurate information and order processing

Assistant Space Arrangement / Interior Designer Intern — Arcdos Contractors Limited, Lagos, Nigeria · 2017

- Defined spatial and functional requirements, prepared cost estimates and budgets, and drafted layouts and 3D models in AutoCAD and SketchUp

Intern — Onyibe Solomon Associates, Lagos, Nigeria · June 2015 – December 2015

- Supported property valuations, inspections and facilities management, and maintained portfolio and financial records

Selected Analytics Projects

Full write-ups, reports and files: kennystfyn.github.io

- **Customer Retention Analytics, Largence (Power BI, DAX):** analysed 150 customers across an 8-page dashboard. Found a 19.33% churn rate (29 churned), £137,112 in lost ARR and £534,464 ARR at risk across 58 accounts. Delivered 7 prioritised recommendations and a 90-day roadmap.
- **Legal Document Lifecycle, Largence (business analysis):** mapped the current and future-state document lifecycle, identified process gaps, and produced a stakeholder presentation and consulting report.
- **ERP Exception Management, NovaPure (business analysis):** produced an end-to-end BA case study from discovery to a to-be process map, baseline-vs-target metrics and a prototype dashboard.
- **Digital Customer Onboarding Automation, NovaPay (fintech):** delivered a business case with as-is and to-be swimlanes, root-cause analysis (fishbone and 5 Whys), a stakeholder matrix and a delivery roadmap.
- **Barrel & Brew (BRD):** wrote a business requirements document with current-state and future-state process maps.
